

Bachelor's Degree in Medicine

Candidate profile

In addition to meeting the legal requirements of the Spanish State and the regulations of the University of Deusto, candidates for the Bachelor's Degree in Medicine must meet the following **recommended entry profile**:

1. Have a great capacity for work, both individually and as part of a team.
2. Have an interest in subjects related to biology and health.
3. Have the enthusiasm to commit to serving the health of the community.
4. Have intellectual curiosity and scientific reasoning.
5. Have the ability to interact with tact and sensitivity, as well as the ability to listen and show understanding to interlocutors.
6. Have the ability to adapt to the environment and to the changes demanded by health, illness, science and society.
7. Have an interest in research and a concern for quality.
8. Have a knowledge of Health Sciences subjects, as well as English.
9. Be enthusiastic about practising person-centred medicine from a humanistic perspective.
